Please contact us for further quantity pricing.

## CUSTOMIZATION OPTIONS

Customize this invitation to your wedding style with your choice of:  
Wording, Fonts, Ink Colors, and Paper Type & Color

### Wording

You don't have to follow a set wording format with us- it's your special day, so word your invitation however you like! Please submit your wording either in the body of an e-mail or in an attached Word document. Please do not submit your wording in caps (you can specify if you would like regular or small caps in your font choice).

For plantable invitations, you may provide your own message about the paper or use our growing instructions, which read "This invitation is made from 100% recycled paper embedded with wildflower seeds. Thoroughly moisten, plant in fine soil, water daily, and watch it grow." This can be printed on the front or back of the invitation (see difference in pricing for printing on back).

### Fonts

Click the "Custom Font Sheet" link in the description to view our large selection of both Script and Block fonts. Choose one font or a combination of a Block and Script font. If you like, you may specify in your wording what text is to be in each font, or our graphic designer can decide what looks good for you! If you have a font you would like to use that is not on the list, please e-mail us the font file or the link where it can be downloaded (if it is free).

### Ink Colors

You may choose one or two colors to use in your artwork. We use Pantone Solid Uncoated colors- any FedEx Kinko's or professional print shop should have this color book available for you to look at in order to choose colors. You can also ask our graphic designer for Pantone suggestions for a color scheme you have in mind. As always, our inks are soy-based and eco-friendly.

### Paper Type and Color

Choose from the wide variety of colors we offer in our handmade papers, including Grow-a-Note® plantable seed paper and handmade specialty paper. Our exclusive Hemp Heritage® paper, which is a natural off-white, is another eco-friendly option. Click on the links in the description to view these papers.

\*If you would like to provide your own custom artwork, please refer to our Artwork Guidelines. The graphic set-up fee will be waived.

## HOW TO ORDER

### Contact Us

Call or e-mail [sales@greenfieldpaper.com](mailto:sales@greenfieldpaper.com) and please provide the following information:

- Design choice
- Wording
- Font choice(s)
- Ink Color choice(s)
- Paper choice and color  
(if plantable paper, specify if you would like growing instructions on the front or back)
- Quantity

Our very pleasant salesperson, Mimi, will get back to you with an official price quote and answer any questions you may have.

## **Proofs**

Our graphic designer will e-mail you an initial proof within 24 hours incorporating all your customized specifications. You receive two more rounds of proofs to make any revisions.

If you would like a hard copy proof, we can mail one to you at no charge. However, please note that we print proofs on our inkjet printer which is not accurate in color or sharpness compared to the offset printer which your order will be printed on.

Please check your proof for correct spelling, grammar, dates and times! Sometimes we do catch errors, but we do not run it through a spell check.

## **Turnaround Time**

From the time of your approval of the final proof, please allow 5-7 business days for your order to print and be ready to ship.

## **Payment**

At the time of your approval, we will also need a credit card on file (number, expiration date, and billing zip code) so that we can schedule a print time for you. Your card will not be charged until your order ships.

## **Shipping**

Please provide us with your shipping address in your final approval. We normally ship via UPS Ground, but let us know if you would like expedited shipping. We can provide you with rates for various expedited shipping options.

We won't know your exact shipping cost until your order is weighed and ready to ship, but we can provide you with an estimate if you would like to know ahead of time.
